

11/4/2025 Webinar Chat Box Text:

00:23:27 Minette Smith: That's amazing!!

00:24:51 Sara Golden: Incredible. That took me so much time!

00:26:22 Sarah Meyers: If anyone has any conference programs, like Montana Institute for example, please send them to us and we can upload them!

00:32:22 Sigrid Gauger: I have seen agendas for The Montana Institute. I haven't seen course descriptions. However, we accept all of the conference hours under General Education. Also, if college credits are listed on the certificate, each credit is adjusted to 10 CEHs.

00:32:59 Melody Tillinghast: Sarah - For those who aren't as spreadsheet-oriented as others, would you be willing to share your spreadsheet with us?

00:33:12 Sara Golden: Reacted to "Sarah - For those wh..." with 😊

00:35:33 Sarah Meyers: What do you think of this change? 2. Are there any obvious changes we can make to this process right now? 3. What are the common pitfalls that make the application process seem overwhelming?

00:35:58 Sara Golden: Yes a consistent spreadsheet across the board would be super helpful. And can we work on the forms as we go? Do we have access to the folders, files now or only as we are renewing?

00:36:10 Stephen Keck: Replying to "I have seen agendas ..." If we decide, that we don't want to break up hours from a specific conference into different CEH categories, can we use the conference certificate for one category based on the certificate and hours listed on it? So, for example, someone goes to a conference and uses the hours under general prevention education.

00:37:48 Seth Farison: I know this is tough, but having a user-friendly place to find trainings that qualify for CPP hours would be great. Something like a calendar. It used to be easier to find trainings, but a lot of agencies have been gutted and aren't prioritizing CE anymore.

00:39:30 Minette Smith: I think the year would be helpful, to have access to the folder earlier. I was actually going to ask if we could request access earlier, so once I have my hours I can just upload it and get it done.

00:39:58 Seth Farison: On the topic of pdfs and spreadsheets, a Google Drive full of different PDFs is a tough format because you can't edit things live and end up with multiple copies of stuff. I'm down to brainstorming some options that are more dynamic and easier to update

00:43:12 Seth Farison: The current setup is definitely way better than it could be! But I'm hopeful we can streamline further. I'll reach out if I have any light bulb moments

00:57:10 Sara Golden: Tons of great info.

00:43:20 Sarah Meyers: Reacted to "The current setup is..." with ❤️

00:49:34 Sarah Meyers: I have to get ready for another meeting, thank you everyone for coming today!

00:52:09 Stephen Keck: Do you all count the PTTC; healthknowledge ethics training? 2 hours. Self-paced.

00:53:18 Liz Wilhelm: Replying to "Do you all count the..." Yes!!!

00:54:07 Stephen Keck: <https://www.healthknowledge.org/enrol/index.php?id=526>
This one is self-paced and managed.
